The Vocational and Independence Program (VIP) is a high school transition program with a focus on soft skills, independence, employment readiness, and integrated competitive employment. This holistic program provides hands-on work experiences at Cedarbrook Nursing Home and training in work essential skills, such as appearance, communication, job performance, and community-appropriate behaviors. In addition, the program provides lessons in Independent Community Travel (ICT) and Community Based Instruction (CBI) once a week, where interns go into the community to learn how to travel safely and efficiently, as well as practice taking public transportation and help develop age-appropriate skills for functioning outside the school environment.
